

AAMISH

DJ | PRODUCER

BIO

Aamish/Varun Khullar, a dynamic DJ and Producer, thrives on evoking a state of euphoria through his craft. He has attuned an introspective sense of sound to crack the enigmatic vibes for every crowd he entertains, with genres as versatile and potent as Disco, House and Hip Hop to his signature sound of Melodic House & Techno. Aamish, who is India's first and the World's second differently-abled DJ, juxtaposes a state of profound dwam with high energy resonating through his music wherever he goes.

Aamish makes his own music by transforming inspirations into ideas that turn crowds ecstatic, as witnessed in the wild openings at the Timeout72 Music Festival and BUDXMUMBAI. The energy on the dance floor is electrifying and an experience to behold when the DJ behind the console is Aamish, to which the nights at Kitty Su, where he is a current Resident, is testimony.

Breaking familial norms to choose a career that was poles apart from what was conventional, only to be shackled by a tragic accident that confined him to a wheelchair, Aamish has risen above hurdles of uncertainty and insensitivity with solid mettle and steadfast perseverance. Finding his recluse in music after the accident, Aamish ignited his passion to connect people with DJing and has metamorphosed into one of the most sensational DJs in town with a full house whenever he is on board.

Developing his musical influence from some exceptional luminaries in the field like Franky Knuckles, Larry Hard, A Guy Called Gerald and Marshall Gefferson, Aamish unfolded his journey into music with his debut at Tamasha, Delhi in late 2017 and has only streaked ahead since then. Aamish has till date shared the stage with some of industry's celebrated artists such as Dyro, Sevens, Thomas Gold, Martin Garrix, Wiz Khalifa, Jason Derulo, Dubvision, Don Diablo, Nervo, Justin Mylo, Coyu, Lee van dowski, Dousk, My Favorite Robot, Gab Rhome, Adana Twiins, Peter Dundov, Guy Mantzur, Gioli and Assia to name a few. His charisma extends beyond his musical deck to being a Tedx Speaker and a Limca book record holder, some of his accolades including the Bharat Prerna Award and the Epic Award as well.
